Jordan Lee

123 Example St | Springfield, ST 00000 | Phone: (555) 010-0199 | Email: jordan.lee@example.com

EDUCATION

Example State University *B.S. Computer Science* GPA: 3.8 Springfield, ST | May 2026

- Relevant Courses: Software Engineering, Data Structures & Algorithms, Databases, Computer Systems, Distributed Systems, Computer Networks
- Extracurriculars: Robotics Club (Software Lead), Hackathon Organizing Committee, Intramural Soccer

Springfield High School GPA: 4.0 Springfield, ST | Class of 2022

- Extracurriculars: FIRST Robotics (Captain), Math Team, Varsity Track, School Newspaper (Editor)

TECHNICAL EXPERIENCE

Transit Tracker *(TypeScript, React, Node.js, PostgreSQL, AWS)* Fall 2025

- Built a real-time bus arrival web app serving live GPS feeds to 1,200+ weekly users
- Designed a Node.js REST API with PostgreSQL caching, cutting median response time from 900ms to 120ms
- Deployed on AWS with a CI pipeline running unit and end-to-end tests on every pull request

Plant Disease Classifier *(Python, PyTorch, NumPy)* Spring 2025

- Fine-tuned a convolutional network to classify 38 plant diseases from leaf photographs
- Reached 94% validation accuracy, up from a 71% baseline, through augmentation and learning-rate scheduling
- Wrote a data pipeline that cleans, deduplicates and splits ~50,000 images for training

WORK EXPERIENCE

Acme Logistics *Software Engineering Intern* Springfield, ST | June 2025 - Aug 2025

- Built an internal Python service that reconciles shipment records across three warehouse databases
- Shipped a React dashboard used daily by the operations team to flag delayed orders
- Diagnosed and fixed production data-format bugs during a two-week on-call rotation

Example State University *Teaching Assistant, Intro to Programming* Springfield, ST | Spring 2024

- Led weekly lab sections of 30 students and graded assignments
- Held office hours and mentored students on final projects

SKILLS & INTERESTS

Languages: TypeScript, JavaScript, Python, Java, SQL, HTML/CSS

Frameworks & Tools: React, Node.js, PostgreSQL, AWS, Docker, Git, Jest

Interests: Cycling, Chess, Photography
